This architectural section drawing illustrates the vertical structure of a building, including its foundation, ground level, and roof. The drawing is marked with various elevation points and structural details:

- Roof Level:** The highest point is marked at $+10.61$. A slope of $+2.57\%$ is indicated for the roof structure.
- Ground Level:** The ground level is marked at $+0.00$.
- Basement Level:** The basement floor is marked at -3.30 .
- Floor Levels:** The first floor is marked at $+184.85$, and the second floor is marked at $+184.85$.
- Staircase:** A staircase is shown on the right side of the section, connecting the ground level to the upper floors.
- Structural Elements:** The drawing shows the foundation, walls, and floor slabs. A vertical red line indicates a structural break or a specific wall location.
- Dimensions:** A vertical dimension of 3.00 is shown for the height from the ground level to the first floor.
- Other Markings:** Additional elevation points include $+191.40$ and $+188.35$ for specific structural elements or roof sections.
